

MONA FIT KID CLUB

# COVID 19 PROCEDURES

In order to protect all students, it is necessary to implement the following procedures for the foreseeable future. I would appreciate everyone's cooperation with these procedures.

- please do not enter the building before the starting time of your child's class. Remain in the car until the appointed time.
- kids must be left at the door of the club with our teachers - parents are not permitted to enter the club.
- From now on all registrations will be through the new online application (including payments). We won't be able to chat with you at the club anymore. However if you have any emergency you can contact me by phone. If I need to communicate with you will be via the email you used at the registration.
- The changing rooms will be closed. Please ensure your child arrives already dressed for the class.
- Please make sure the kids have a label with their name on their drink bottle (especially for younger kids because they could mix their bottles).
- No additional bags are to be brought in the studio.
- kids are to use hand sanitiser provided before entry to the studio and after being in the toilet.
- kids will be allocated a designated spot in the studio for the majority of the class and will be instructed on that. We have marked the carpet with an X, so they have to pick their spot instead of waiting on the bench like before. They are not allowed to train during this time until the teacher starts the class.
- Please ensure your child goes to the toilet before class to avoid congestion. Toilets will be available but I would like to limit the number of people using them for their safety and the proper running of the class.

## **MONA FIT KID CLUB**

- **Toilets and surfaces will be cleaned between and during the classes following Covid 19 rules.**
- **It is vital that all students are collected promptly. Please keep the marked distance in front of the club when you collect your children.**
- **Every parent has to complete a self declaration before the first class. I will email it to you. However if you are not able to print that off, I can give it to you at the beginning of the class. If you are able to do it yourself you can just do a screen shot and send it back to me.**
- **If there is need I will take the kids temperature with a device that doesn't require to touch your child. If your child temperature is over 37.8 I will isolate them in a designated room. Then, I will contact you straight away to pick up your child. In this case you need to ring your GP and follow his/her instructions. I will also inform parents who were they in contact with. Please be aware that we will do all this in a sensitive way and other kids won't be affected. A teacher will supervise your child at all times while we'll do our best to distract her/him and keep his/her happy.**
- **When the kids return to us we will go over a few basic instructions in regards to Covid 19 (cover your mouth when you cough, social distance, wash hands etc). Please make them aware that things will be a little bit different but we will make our best not too stress them. However we need to obey the law and sometimes we might have to correct them to protect everyone.**

**Thank you very much for your cooperation!**
